When I was growing up, I wanted to be a juggler at circus. Then I wanted to be a singer. Finally, I wanted to be a painter. I never got to do those things, but now that I've grown up, I've realized that God has given me many other talents to use for Him. I also learned that each of

us needs to use our talents in ways that point to our creator. When we use our talents to point attention towards ourselves we are missing the point. God gives us talents so we can use them to glorify him!
